Plan, Hunters Point Shipyard, San Francisco, California dated 4 August, 1999
(2) Response to Agency comment

1. Enclosures (1) and (2) are forwarded for your information. This memorandum has been revised in response to comments from the EPA dated 1 April, 1999. Appendices have been added to make this a stand-alone document. It clearly explains how and why the screening plan for nickel in soil was developed and how it will be implemented.
2. The Navy and the BCT must still decide how to memorialize this revision. Meetings to discuss the Parcel B remedial action are scheduled over the next several months. At the conclusion of these meetings either an Explanation of Significant Differences or a ROD amendment will be prepared to address this issue.
3. If you have any questions regarding these documents, please contact Ms. Jil Finnegan, Code 6227, at (650) 244-2554.
